Re: Soule River Hydroelectric Project
P-12615-000--Alaska
Notice of Intent (NOI) & Preliminary Application Document (PAD)

Dear Agency Representatives:

Yesterday the NOI and PAD for the Soule River Hydroelectric Project, P-12615, were filed with FERC. Included at the back of the NOI and PAD, which are included here as one document, is the Communication Protocol (CP) you approved last spring 2007 and the summary report for the environmental studies that took place last year. The draft Study Plan will be submitted for review and comment in the near future.

Sincerely,

A handwritten signature in cursive script that reads "Glen D. Martin". The signature is written in black ink and is positioned to the left of the typed name and contact information.

Glen D. Martin
Project Manager
