# News Release

## AP&T Announces Notice of Action Required by Local Cell Phone Users In AP&T Service Areas.

Anchorage, September 15, 2006. Alaska Power & Telephone Company (AP&T), (through its subsidiary Alaska Telephone Company), today announced changes in the way calls made to cellular phones from land-line customers will be routed within ATC service areas. After October 31<sup>st</sup>, 2006, calls from local land-line customers to prefixes located outside the land-line calling area, presently routed as a local call, will be routed as a long distance call through the appropriate long distance provider. Local Land-line customers making calls to Cell phone customers with the prefixes listed below will be affected by this routing change and such calls will be subject to long distance charges as of November 1<sup>st</sup>, 2006. However, calls to cell phone customers with "local" prefixes will not be subject to long distance charges. Cell phone customers with the prefixes listed below will be able to obtain a "local" prefix at no charge by contacting their wireless carrier.

### **Cellular One Prefixes --- Contact Number (1-800-759-0562)**

Tok - 347, 378, 388, 978, 750, 952
