- Must have industry standard electrical safety training
- At least five (5) years' experience in meter programming and testing experience
- CIS and Command Center knowledge, or training is desirable
- Knowledge of Landis+Gyr metering and associated software is desirable
- Must be able to lift 50 pounds regularly
- Must be able to travel
- Must possess excellent time management skills
- Must have a willingness to deal with occasional harsh weather conditions
- Passport is required for occasional travel through Canada

Job Duties and Responsibilities:

- Oversight of Command Center for all of AP&T
- Assist with testing and programming of single and three-phase meters, and the ability to train local staff
- Assist with maintaining all meter systems throughout AP&T
- Coordinate annual testing of three-phase meters throughout AP&T
- Coordinate scheduling of annual meter audits throughout AP&T
- Coordinate testing on customer meters to resolve billing issues
- Attend ongoing training related to maintenance of AMI systems for AP&T
- Coordinate annual training needs with local Power Operations
- Other duties as assigned

Please send your resume directly to Christina Hamlin, Director of Human Resources (christina.h@aptalaska.com). This posting will close on March 31, 2020.
